

NEVBORN

— RIDER —

This sheet is intended to ease the process between our band
and the concert venue / festival.

We are excited to play at your venue!

TRANSPORT

We come from different cities, so it is possible that we will arrive with three cars.

BACKLINE

We can provide all of our own equipment if needed. However, where possible, we would appreciate coordinating with the venue or other bands to share equipment and minimize the amount of gear we need to transport, allowing us to travel with fewer vehicles.

STAGE

We do not have any specific recommendations for the sound engineer on site, but you will find an (ideal) stage plan on the next page, hoping it will be helpful to you.
